

Chafing Dishes & Accessories for Buffet System

CHAFING DISHES

CookTek's chafing dishes are compact and sleek in design and feature a slow-down hinge mechanism. Lids can be stopped at a 60° angle for convenient serving and are available with metal or glass lids for easy viewing.

The chafing dishes contain SmartTag™ technology, allowing instant, two-way wireless communication between the dish and induction surface. SmartTag™ ensures food temperature is maintained at specific holding temperatures, customized by the user.
