

The Campus Products Stemshine™ was designed with the restaurant operator in mind. Eight high spinning soft polishing brushes aided by a heated fan assists the operator in producing gleaming shiny stemware. Easily capable of drying and polishing six to eight times the human equivalent the Stemshine™ provides labor savings in addition to higher quality results.

The Stemshine™ is designed to function as a permanent fixture, yet is light enough to be moved around any facility on a "where needed" basis. Drawing only 13 amps, and weighing in at 65 lbs makes the Stemshine™ completely portable. High quality polishing, fast drying, brilliant shine all equates to a positive reflection.
